III. Flight Plans

D. Adding a Waypoint to a Flight Plan

NOTE:

    If the to-be-changed flight plan is a stored flight plan, from the Home Page, PRESS "Tools", "FPL List" and then on the flight plan to be modified. PRESS "Review Flight Plan" from the choices shown.

    OR

    If the Active Flight Plan is to be changed, PRESS "Home", and "Active FPL".

With the desired flight plan displayed:

1. PRESS on the waypoint that will follow the to-be-added waypoint to view the selections shown.
2. PRESS the "Insert Waypoint" option to view the waypoint selection screen.
3. PRESS the appropriate arrow to select how the waypoint will be chosen.
4. PRESS on the bar to open the keyboard screen.
5. PRESS on the keypad to spell the desired waypoint. The screen changes to the Active Flight Plan showing the added waypoint.
